 actively play, the progress bar will be reset. You can avoid this with a special protection function - it is activated for 24 and 48 hours. Users can track the achieved level or rank in the personal cabinet. The number of points gained and available rewards are also displayed there. This makes it possible to conveniently check their progress. Playtika
 rewards Since the WSOP platform belongs to the company Playtika, there is a loyalty program under the same name. It provides for the accrual of experience points for active poker games and coin bundle purchases. There are seven statuses in the program - six basic and one special Black Diamond. To move from one status to another, you need to
 accumulate the required number of points. The progress bar is displayed in the personal cabinet. The higher the status of the player, the more rewards are available to him.
