Greater grace christian academy md

My child has been attending GGCA since Kindergarten and is currently in 2nd grade. She had an amazing teacher in Kindergarden, Ms. Anderson, but unfortunately the 1st grade teacher, Ms. Preston, was quite strict. Tuition fees at GGCA are for its highest grade level and might have changed since last year's update. If you need more information, please contact the school directly. GGCA is a Christian School in Baltimore that focuses on providing a supportive learning environment based on their Christian values. Their mission is to educate young people by teaching them about God's love through words and actions. As a church-based private school, GGCA aims to help parents fulfill their responsibility of raising their children with good moral values. Here are some reasons why we chose GGCA: - We offer a range of extracurricular activities such as sports and arts. - Our students learn in a Christ-centered environment where they can grow spiritually and academically. - Our primary goal is to create life-long learners who think logically, critically, and biblically. According to Niche rankings, which are based on government statistics and millions of reviews, GGCA is a great school. Here are some highlights: * Over 80% of students feel safe at their school. * Most students enjoy their time at the school and feel happy there. * Students agree that they like their school and feel competitive. We also value the following aspects of GGCA: * The teachers genuinely care about each student's wellbeing and provide engaging lessons. * Our students are well-rounded, with many participating in sports, arts, and other activities. * We have a strong focus on both academic and spiritual excellence. As an alumnus myself, I'm proud to say that my experience at GGCA was excellent. I've enrolled all three of my children since Kindergarten, and they love the school's environment, teachers, classmates, and sports programs. The school truly cares about each child's wellbeing and provides them with a well-rounded education. GGCA is an amazing school that strives for excellence in all aspects of a student's life. The staff truly care about their students' success, not just academically but also spiritually. With a strong focus on the Christian faith, GGCA provides a supportive environment where children can grow both intellectually and morally. While some may find it challenging due to its small size and lack of advanced classes, GGCA offers a unique experience that fosters confidence, community, and character. The school's diverse student body of 200 students across all grades creates a tight-knit family atmosphere. The chapel services, outreaches, rallies, and camps provide opportunities for spiritual growth and development. The sports program is well-regarded, with a safe and supportive gymnasium for basketball and volleyball. The school's selective admissions process ensures that only students who attend church are accepted, which helps to maintain the school's Christ-centered values. With an enrollment of 195 students and a yearly tuition fee of \$9,000, GGCA is a private Christian school that offers a well-rounded education in a supportive environment. As a team, we strive to foster student growth in understanding and biblical perspective, co-laboring with parents to support our mission for Christ. Our "What A GGCA Student is..." model guides daily instruction, weekly outreaches, and extracurricular activities. Visit our website at www.ggca.org to learn more about our academy. 1. The quality of academic programs at a school should be considered as part of the decision-making process. 2. Evaluating the availability of music, art, sports, and other extracurricular activities is also important. 3. Academic or athletic awards can be a valuable indicator of a school's reputation.
