## I'm not a robot

The iPhone Wallet uses NFC to wirelessly communicate with physical Point of Sale (PoS) terminals - NFC being the mechanism used by ApplePay (and Google's Android equivalent) to securely exchange registered Credit Card details and authorise a payment. The Apple Wallet App has dependency upon NFC hardware which is absent from all models of iPad. Consequently, the Wallet App is not available for iPad. Whilst perhaps a moot point, consider the practicalities of attempting to bring a specific area of an iPad (which may be sizeable) within close range of a PoS terminal! Whilst iPad does not have a Wallet App per-se, iPad does have Wallet in iPad settings. Here you can register Credit Cards for ApplePay - but this is not intended for NFC. Instead, iPad is able to participate in remote e-commerce payments - such as a website. I hope this explanation brings useful clarity as to the capabilities of both iPad and iPhone in context of ApplePay and Wallet. More information about Apple Wallet features and availability can be found here. Wallet AppleAdd, use, and share boarding passes, tickets, and other passes in Apple Wallet - Apple Support iPad They say to turn iPad off but the touchscreen isn't working, how can I turn it off without it? iPad Air 5 Wi-Fi Posted on Mar 6, 2023 5:00 AM Start here >>> If the screen isn't working on your iPhone or iPad Apple SupportIf your iPad is unresponsive, connect your iPad to its Power Adapter and allow the iPad to charge undisturbed format least an hour. Then, while still connected to external power, try a forced-restart: Force restart iPad (models with Face ID or with Touch ID in the top button) If your iPad doesn't have the Home button, do the following:Press and quickly release the volume button.Press and hold the top button.Press and hold the top button.Press and hold the top button and the Home button at the same time. When the Apple logo appears, release both buttons. If iPad still doesn't turn on, or if it gets stuck during start up, see the Apple Support article If you continue to experience difficulties, you will need to seek assistance directly from from Apple Support. You can contact the Support Team using the Support table on your iPad, the App can be downloaded from the App Store: might also visit the Genius Bar at your local Apple Store or Apple Authorised Service Provider (AASP) - where the technicians will be able to test and assess your iPad:Genius Bar Reservation and Apple Support Options - Apple Page content loaded Mar 6, 2023 5:00 AM in response to Cmprgrl28 Start here >>> If the screen isn't working on your iPhone or iPad - Apple SupportIf your iPad is unresponsive, connect your iPad to its Power Adapter and allow the iPad to charge undisturbed format least an hour. The software has become part of my toolkit for data repair and recovery... there's nothing that compares in terms of quality and ease of use! I can't live without it! It's my guarantee of delivering excellent service. Date of experience: July 22, 2025I've been using ultdata for Android for years to extract data from Android devices. Compared to other software, I find ultdata for Android the best and easiest to use. Date of experience: July 22, 2025 Great programs! This is the second time I subbed on one of Tenorshare their services. Great customer support and would highly recommend. Date of experience: July 22, 2025Good Support - easy to useDate of experience: July 22, 2025Good Support and would highly recommend. Date of experience: July 22, 2025Good Support - easy to useDate of experience: July 22, 2025Good Support - easy to useDate of experience: July 22, 2025Good Support - easy to useDate of experience: July 22, 2025I've been using
iAnyGo (Mac) from Tenorshare.net, and it's honestly an incredibly handy tool—especially for location-based games like Pokémon GO.It doesn't require any complicated setup. Just connect your iPhone to your Mac, and with a few clicks, you can spoof your GPS location to anywhere in the world. The walking mode and custom route features are also great—they simulate realistic movement, making the experience even more natural. The Tenorshare net website itself is easy to navigate, with a smooth purchase and download process. Plus, it's fully supported in English and Japanese, which is a big help for international users. Their customer support is also very responsive and helpful. If you want to take your location-based gaming experience to the next level, iAnyGo is absolutely worth trying! Date of experience: July 22, 2025 I've been using Tenorshare's iAnyGo application, and it's incredibly easy to use. Even if you encounter any issues with the app, the support team responds promptly and provides clear answers to any questions. I definitely recommend it!Date of experience: July 22, 2025You can use this program to resolve unexpected issues that occur on your iPhone. Unlike a factory reset, this method does not erase the data stored on your phone, which is a major advantage. Date of experience: July 22, 2025DDiG Mac Cleaner is by far the best and easiest file cleaner out there. It is simple, easy to use and only cleanses true duplicate files. If you have accumulated numerous photo, MP3 or other files this is your go to solution to clean up any redundancies. Date of experience: July 19, 2025Date of experience: May 21, 2025I've been using iCareFone since 2021 and it's been great. Super easy to use and always connects smoothly with my iPhone. Really reliable and handy tool, I'm glad I found it!Date of experience: July 21, 2024Tenorshare support was quick to get back to me when I struggled with the software and it has proven helpful so often. Thank you!!!Date of experience: July 21, 2025Top experience: July 20, 2025Tenorshare product works great for me! Tenorshare product works great with both iPhone and android products. I am very pleased. Date of experience: July 20, 2025Date of experience: July 20, 2025Amazing application, very reliable and useful. Highly recommend. Date of experience: July 15, 2025Your support team is amazing never have I had a problem with them they treat you how they would like to be treatedDate of experience: July 20, 2025Great software and exceptional customer service, they response promptly and work with you all the way to solve your problem or answer your question Date of experience: July 16, 2025Date of experience: July 19, 2025This is very easy software to use and has helped me create backups of my system, saving me several times when files were accidently deleted, and has helped recover hard drives and data when problems occurred making the dis unavailable under Windows, it was still available to this software and able to be fixed by this software. Date of experience: July 19, 2025 An iPad will be disabled or indicate that it is unavailable if an incorrect Passcode is entered too many times.
