Your preferences are configured to warn you about this kind of mature content. Edit Preferences Back in 2020, France-based publisher Nacon announced a brand-new entry in the open-world racing series, Test Drive Unlimited Solar Crown. The developer behind the wheel of this game is fellow French developer Kylotonn, responsible for other racing games such as the WRC series, which was also published by Nacon. Unlike most racing games, Test Drive Unlimited Solar Crown's premise is focused on a high-class lifestyle, especially in regard to fashionable appearances and luxury car owners. Last year's trailer of Test Drive Unlimited Solar Crown focused on these aspects, with emphasis on the stylish painted cars, the luxurious setting, and the lifestyle that people of this caliber would participate in. In a recent blog post by the developers of the game, it details that the player will be participating in a clan war on Hong Kong Island, where they will choose to align with either the Streets or the Sharps. These two clans will clash in the Solar Crown competition, the goal being to impose their own lifestyle over the other. The same blog post confirms a number of other details, including its release window. One of the most important details that the Test Drive Unlimited Solar Crown team notes is that Nacon would be dropping development on the PS4 and Xbox One platforms. According to the blog post, this was due to the team wanting to take advantage of the technology that is available on the next-gen consoles and "maximize" the game's quality. The Switch version seems like it's still being developed, though it could be a more compressed version in order to fit the portable hybrid console. Another big announcement however would be that Test Drive Unlimited Solar Crown will now be aiming for a 2023 release date. The team said since the game was getting a lot of support from fans, this delay is to polish it to a degree that the many fans will be able to enjoy it. Not to leave fans disappointed, however, the team states that this extra development time will allow fans to become involved with a series of beta tests. The team notes that the schedule for these closed beta tests of Test Drive Unlimited is being worked on, with more ardent fans getting the chance to test the game way before it releases. This phase will allow for developers to take on feedback from fans so that the racing game can be improved further. Test Drive Unlimited Solar Crown will launch in 2023 for PC, PS5, Switch, and Xbox Series X/S. MORE: 5 Best Open-World Racing Games Of All Time Source: Steam This is the official discussion topic of the Test Drive Unlimited Solar Crown Trainer and Cheats in the WeMod app. Please post any suggestions, bug reports, or praise that you may have for the cheats in here! Download the trainer or find it in the WeMod app. Trainer Options and Cheats: 1. Freeze AI Supported Game Versions: We strive to keep our trainers up to date with the latest game versions. WeMod automatically detects which version you have installed and activates the mods accordingly. So there's no need to worry about which version of the game you have! Updates and Changes: 09/16/2024 Started development 09/16/2024 Released trainer with 1 cheat 10/04/2024 Bug fixes and game compatibility improvements 12/18/2024 Bug fixes and game compatibility improvements 03/21/2025 Bug fixes and game compatibility improvements Check out all of the games WeMod supports here. 4 Likes The Test Drive Unlimited Solar Crown cheats have been updated! Changes: Released trainer with 1 cheat 8 Likes Thanks for starting work on this game and already getting some stuff out for it. I tested out the AI freeze and worked nicely. Looking forward to more. 3 Likes i test it but the game crashed and frozed 4 Likes Edit: So it does work. Step 1: Hit play Step 2: Log in like normal Step 3: Exit your room. Then open your world map and activate Freeze AI. This only freezes AI in solo race not NPC in world map or if there is a player. Make sure your alone. Bugs i notice is sometimes you freeze and crash. You may also lose 5-10 frames (This happens to me). Hopefully this here isnt some type of Anti cheat. Thank you for working hard and getting this working. 3 Likes I did some brief testing on a race that's been giving me problems. Instead of freezing the AI it's actually forcing them to drive in reverse which is pretty funny. I don't plan to use this very much but it is nice to know this is working. 2 Likes Any risk for getting Vac banned? 1 Like Tested 17/09/2024, game crashes as soon as AI FREEZE Activated during the race start 2 Likes Hi thx for the cheats do there gonna be more cheats? Like money or xp? 2 Likes thanks, this works. As soon as you activate and deactivate AI Freeze without any AI on screen, this works fine without crashing 1 Like Not work > Edit: So it does work. Step 1: Hit play Step 2: Log in like normal Step 3: Exit your room. Then open your world map and activate Freeze AI. Freeze The game and crashed Edit: it works when you before race go you activated 1 Like While playing mode is active, even if ai freeze is not active, the upgrade in workshops are buggy: -After around 5-6 purchases of parts for cars the 6-7 gets an infinite loop... needs to close and restart game, but all purchased made are paid but not install. second bug encounter: While playing mode active, either on or off for ai freeze, a pop-up says "cannot saved files, do you wish to try again... yes still shows, no still shows- Free roam and in races ty- Zyeel when i tried it for first, the mod was ok, after some 2-3 races when i try to freeze the AI the game completely crashing when i press f2 on race for activate the trainers the game freeze and need quit Read the Description carefully: Go to MAP Press F2 Exit Map Start Race After Race the Cheat is still activated. To deactivate go to Map and press F2 I walked around in the hotel room then activated the cheat but my game freezes. Then i tried to walk out the room and open the map then do the cheat but that also freezes my game. Im confused on what i am doing wrong. Cheat works perfectly. Shame there is no cheat to fix the servers XD I wish there was more cheats but we will see if they do add an offline mode what if people join your race? is there anyway to add a race timer cheat? Where i can finish one of the crown jewel races in under 12mins or 40mins for the tasks. Page 2 activate/deactivate it when you have the map open Better end the game via ALT+F4. can u add a frim mod? i seen somebody on youtube was supposedly able to do it? 1 Like Not sure about the firm but on another site they have this on there trainer. • Freeze AI • Reduce Collision Effects • Teleport To Waypoint • Add Time • Subract Time • Game Speed You gotta pay to use them of course. Hopefully we get the reduce collison effect on wemod. If it has a leader board high risk of being banned. But it is possible as a different site has them. Just wish we have the reduce collison. ive been using the heck out of freeze AI lmao. anyone can read memory for F.R.I.M multiplier cheat? i saw a video from S3th1os freezing the multiplier to x100 so you get easy stunt money. How do i mess with the memory? And what does that do? I have used it and it works fantastic, he's working on a bypass aparently you must be only activ the cheat befor you go on a race ... not on worldcard Hi a money mod and Xp will be very cool 1 Like could you add a FRIM multiplier and a add money hack before the patch get added pls that would be appericiated 1 Like hey ive been another guy add infinite money and xp can u please do that the leveling up takes too long thank you The newest update seems to have broken the Freeze AI. Its forcing my car to be stuck in reverse as well. 2 Likes Mine crashed my game multiple times before I even could race. So I assume same as the above complaints. Thanks! Hi! Are they going to update the trainer? When will more options come out? Thanks for the work! 2 Likes Waiting too. Thanks for your fix. That game is unplayable without this 2 Likes @MrAntiFun Kindly, update the game ASAP as still game is uplayable without this trainer. Do update it. 3 Likes Page 3 Ich bitte @MrAntiFun auch um eine schnelle Aktualisierung des Cheats. Das spiel ist sonst nicht spielbar 1 Like @MrAntiFun → ab wann ist mit einem Update zurechnen? Bitte schnellstmöglich um aktualisierung, da das game sonst nicht spielbar ist mit deren Overpower KI. Ich hoffe das heute noch ein update kommt und endlich mal das game spielen kann. Das mit KI einfrieren hat eigentlich gereicht, aber vielleicht finden sie später noch was um mehr geld zu machen, aber das ist zweitrangig. 2 Likes Hi there! Currently, the trainer is #10 in the queue for updating. You can view the queue list by navigating to Creators > Queue within the WeMod app. If you want to receive a notification once the trainer has completed its update, hit the Notify me button on the trainer within the WeMod app. Also, if you're a Pro member, you can influence its queue status using Boost. 1 Like can u please make a mod for money and xp it takes way too long to level up 2 Likes since i never use my boost for anything lol 3 Likes The Test Drive Unlimited Solar Crown cheats have been updated! Changes: Bug fixes and game compatibility improvements 3 Likes my game keeps crashing when i try to use it can you add money cheat and xp cheat to speed up the level proces or times 5 it? been working fine all day for me Thank you @MrAntiFun for the update! Everything has been working fine for me, I completed a couple of races. Thank you for the update. Everything has been working with no crashes. I've been able to complete some races where the AI is simply too fast for me to even compete. how do you us it? mine keeps on crashing Personally I load the game and once I walk into the lobby I open the map and hit play on Wemod to start the mod but keep the freeze AI off till I get into a race and right before I hit start race Ill activate freeze AI. Once the race is finished, make sure to deactivate it in the ending screen. So far I haven't had any issues with my method. 1 Like Herzlichen dank @MrAntiFun für die Aktualisierung des Spiels. Ein Geld Cheat wäre ebenfalls super. Wenn dieser in der nächsten Zeit kommen würde, wäre ich sehr dankbar. seems this is broken soon as i enable it crashes game may have been a game issue tried again and works fine Hi @MrAntiFun! Are you working on new features? Maybe freeze time or FRIM multiplier?.. I appreciate your great work! 1 Like Can we get frim multiplier too pretty please?? @MrAntiFun 1 Like Can we get some sort of money cheat? The grinding in this game is not worth it. @MrAntiFun 1 Like If anyone is experiencing game crashing issues, I might've come up with a solution. Activate the mod when in the hotel room or when booting up the game. Page 4 @MrAntiFun any news or preview of future functions in the trainer? Can the value of the cars be changed? turn the trainer on when you're in your hotel room. don't turn it on during a race. Its not working anymore. the game crashes Hey! Have you tried the steps provided by a fellow user? Test Drive Unlimited Solar Crown Cheats and Trainer for Steam Trainers If anyone is experiencing game crashing issues, I might've come up with a solution. Activate the mod when in the your hotel room or when booting up the game. After trying every solution i found, the only one that worked for me is activate with the map open. But the weird thing is that until yesterday i could turn on and off whenever i wanted. No longer works as of 11-29-24. Crashes game when activated. 1 Like Hi! Are you using the mods on a multiplayer/co-op mode? Was coming here to post this same thing buy you beat me to it. same thing happend to me and i try to found a fix idk, i drop the graphic quality and i disabled V-sync i disabled a lot of thing but still crashed to desktop when i activated the cheat. Tested it Yesterday Mod still works when you are alone 1 Like Need update, no longer works after today patch Yes MrAntifun, please update that the AI is able being freezed for solo races. It is still too strong sometimes Is there any chance to have a "Time freezing" for tasks completion? Aqui deu umas travada maluca... Hello, My message is dated December 12, 2024, When I activate the mod this doesn't work, is it possible to update it? Thanks 1 Like Hey! Currently, the trainer is #50 in the queue for updating. You can view the queue list by navigating to Creators > Queue within the WeMod app. If you want to receive a notification once the trainer has completed its update, hit the Notify me button on the trainer within the WeMod app. Also, if you're a Pro member, you can influence its queue status using Boost. When I activate the mod it doesn't work, can it be updated? thank you 1 Like The Test Drive Unlimited Solar Crown cheats have been updated! Changes: Bug fixes and game compatibility improvements 1 Like thank you so much my dear
