Exploring the Origins of the Jihad Movement Jihad, an Arabic term signifying striving or struggling with a virtuous aim, has a rich history in Islam. It is essential to delve into the roots of the Jihad Movement Jihad Movement, its historical evolution, and the individuals who played pivotal roles in shaping it. The Birth of the Jihad Movement Jihad
credited with being the first to lead a comprehensive movement that was religious, military, and political was Syed Ahmads movement. Syed Ahmads movement resonated with the common people and rulers alike, as he fervently called for jihad. Syed Ahmads efforts were
characterized by a call to action, encompassing religious devotion, military strategy, and political vision. He sought to rally Muslims around a common cause, transcending religious boundaries, and uniting them in a shared struggle. Jihads Historical EvolutionThroughout Islamic history, the concept of jihad has evolved and taken on diverse
interpretations. Jihad has been employed to legitimize wars against non-Muslim entities, even when the motivations were rooted in political and secular concerns. This trend can be traced back to the Umayyad period (661750 CE), an era during which the notion of jihad began to encompass broader struggles. Under the Umayyad Caliphate, wars
waged against non-Muslims were termed jihads, granting them religious context. The Origins and Relevance of JihadThe origins of the jihad movement can be traced back to the early Islamic period when its interpretations and
applications began to diversify. What is clear from its historical evolution is that jihad is a multifaceted concept, encompassing religious devotion, spiritual struggle, and, at times, military action. While the term jihad is often associated with armed conflict, it has a broader and more profound significance in Islamic tradition. It underscores the enduring
and praiseworthy struggle for righteousness and moral excellence, serving as a reminder of the multifaceted nature of the human experience and spiritual growth. The jihad movement has deep roots in Islamic history, evolving to encompass various dimensions. Syed Ahmads leadership marked a significant milestone in the development of a
comprehensive jihad movement, emphasizing its religious, military, and political aspects. Throughout history, jihad has provided a framework for various endeavors, making it a complex and multifaceted concept. Learning the Qur'an by heart is considered engaging in Greater Jihad The phrase internal Jihad or greater Jihad refers to the efforts of a
believer to live their Muslim faith as well as possible. All religious people want to live their god. So Muslims make a great effort to live as Allah has instructed them; following the rules of the faith, being devoted to Allah, doing everything they can to help other people. For most people, living God's way is quite a
struggle. God sets high standards, and believers have to fight with their own selfish desires to live up to them, no matter how much they love God. The five Pillars of Islam as Jihad The five Pillars of Islam form an exercise of Jihad in this sense, since a Muslim gets closer to Allah by performing them. Other ways in which a Muslim engages in the
'greater Jihad' could include: Learning the Qur'an by heart, or engage in other religious study. Overcoming things such as anger, greed, hatred, pride, or malice. Giving up smoking the floor of the mosque. Taking part in Muslim community activities. Working for social justice. Forgiving someone who has hurt them. The Greater Jihad
controversy The Prophet is said to have called the internal Jihad the "greater Jihad". On his return from a battle, the Prophet said: "We are finished with the lesser jihad and fighting against one's self is the greater jihad (holy
war). This quotation is regarded as unreliable by some scholars. They regard the use of jihad as meaning 'holy war' as the more important. However the quotation has been very influential among some Muslims, particularly Sufis. When Muslims, or their faith or territory are under attack, Islam permits (some say directs) the believer to wage military
war to protect them. However Islamic (shariah) law sets very strict rules for the conduct of such a war. In recent years the most common meaning of Jihad being used to mean a military struggle to benefit Islam. What can justify Jihad? There are a number of reasons, but the Qur'an is clear that
self-defence is always the underlying cause. Permissable reasons for military Jihad: Self-defence Strengthening Islam Protecting Muslims against oppression, which could include overthrowing a tyrannical ruler Punishing an enemy who breaks an oath Putting right a wrongWhat a Jihad is not A
war is not a Jihad if the intention is to: Force people to convert to Islam Conquer other nations to colonise them Take territory for economic gain Settle disputes Demonstrate a leader's powerAlthough the Prophet engaged in military action on a number of occasions, these were battles to survive, rather than conquest, and took place at a time when
fighting between tribes was common. In order to see this content you need to have both Javascript enabled and Flash installed. groups which subscribe to a similar ideology, commonly referred to as "jihadism". The word "jihad" is widely used, though often inaccurately, by Western politicians and media. In Arabic, the word means "effort" or "struggle". In Islam, it could be an individual's internal struggle against baser instincts, the struggle to build a good Muslim society, or a
 war for the faith against unbelievers. BBC Religion: JihadImage source, APImage caption, Al-Shabab is battling the government in Somalia and is linked to a string of attacks in neighbouring KenyaThe term "jihadist" has been used by Western academics since the 1990s, and more widely since the 11 September 2001 attacks, as a way to distinguish
between violent and non-violent Sunni Islamists. Islamists aim to reorder government and society in accordance with Islamic law, or Sharia. Jihadists see violent struggle as necessary to eradicate obstacles to restoring God's rule on Earth and defending the Muslim community, or umma, against infidels and apostates. If the umma is threatened by an
aggressor, they hold that jihad is not just a collective obligation (fard kifaya), but an individual duty (fard ayn) that must be fulfilled by every able Muslim, just like ritual prayer and fasting during Ramadan. The term "jihadist" is not used by many Muslims because they see it as wrongly associating a noble religious concept with illegitimate violence.
Instead, they use delegitimising terms like "deviants". How Islam got political: Founding fathers, externalImage caption, The late Doku Umarov proclaimed the creation of the Caucasus Emirate in 2007Jihadists share the basic aims of advancing Islam and countering danger to it, but their priorities can vary. A recent study by Thomas
Hegghammer of the Norwegian Defence Research Establishment, external identified five prominent objectives: Changing the social and political organisation of the state. For example, the Armed Islamic Group (GIA) and the former Salafist Group for Preaching and Combat (GSPC) fought a decade-long war with Algeria's security forces with the aim of
toppling the government and creating an Islamic state. Establishing sovereignty on a territory perceived as occupied or dominated by non-Muslims. The Pakistan-based Lashkar-e-Taiba (Soldiers of the Pure) is opposed to Indian control of Kashmir, while the Caucasus Emirate wants an Islamic state throughout the "Muslim lands" in the Russian
Federation. them to be outside dar al-Islam and therefore legitimate targets for attack. Image source, AFPImage caption, Osama Bin Laden called for the targeting of both Western soldiers and civilians Jihadist groups targeted civilians before the emergence of al-Qaeda, but it resorted to violence against them on a scale which no other had until then envisaged. In
1998, Osama Bin Laden and the heads of four jihadist groups in Egypt, Pakistan and Bangladesh signed a declaration of total war, external against the United States and its allies, and called for the targeting of both soldiers and civilians. The Prophet Muhammad said Muslim armies should do their best to avoid harming children and other non-
combatants. But the declaration says that killing them is an act of reciprocity for the death of Muslim civilians, external attacking American civilians by arguing that as citizens of a democratic state who elected its leaders, they bore responsibility for their leaders' actions. Image source,

In 2005, Bin Laden's then deputy, Ayman al-Zawahiri, advised, external the late leader of al-Qaeda in Iraq (AQI), Abu Musab al-Zarqawi, that killing Shia civilians -
particularly by beheading them - "won't be acceptable to the Muslim populace however much you have tried to explain it". The use of similar tactics in Iraq and Syria by Islamic State: Can its savagery be explained? Image source,

al-Baghdadi claimed the title of "caliph" in JuneMany jihadist groups seek to establish Islamic states in their respective countries of origin, such as Boko Haram in Nigeria and the Islamic Movement of Uzbekistan. Other groups want to establish a "caliphate" - governed in accordance with Sharia by God's deputy on Earth (khalifa, or caliph) - that
extends across regions. Some, like al-Qaeda, want to re-establish the caliphate that once stretched from Spain and North Africa to China and India. Its leader, Ayman al-Zawahiri, has vowed to "liberate all occupied Muslim lands and reject each and every international treaty, agreement and resolution which gives the infidels the right to seize Muslim
lands", including historic Palestine, Chechnya and Kashmir.Image source, APImage caption, IS fighters have declared the northern Syrian city of Raqqa the "capital" of their caliphateIS leader Abu Bakr al-Baghdadi also wants to "demolish" the borders established by the 1916 Sykes-Picot Agreement, but his group has already acted on this by
declaring the creation of a caliphate that stretches across eastern Syria and western Irag. Al-Qaeda and IS also differ in their approaches to establishing Islamic rule. Al-Qaeda's has been more long-term, while IS has immediately sought to implement Sharia in its territories. What's the appeal of a caliphate? While there are militant Shia Islamist groups
 that are jihadist in nature, they differ in many regards to Sunni groups. According to Shia tradition, mujtahids - the most senior religious scholars - have the authority to declare a "defensive" jihad. But only the 12th or "hidden" Imam - who Shia believe did not die when he disappeared 1,100 years ago - can declare an "offensive" jihad. For centuries,
most Shia clerics advocated political quietism while they awaited the Imam's return.
