Drive Mad is a thrilling car game where players navigate through an obstacle-filled track, trying to reach the finish line intact. To succeed, one must balance speed with caution, lest their vehicle flips over. The newest update, version 1.4, has revamped the game's UI and menu, offering a fresh look and exciting visuals. Additionally, new achievements have been introduced, providing extra challenges for players. Players can control Drive Mad using various keys and mouse clicks to steer forward or backward. This fun arcade game is developed by Fancade and can be played for free on Poki. It's also compatible with mobile devices and desktop computers. In contrast, Hills of Steel is an action-packed shooter game where players control a tank in a hilled battlefield filled with enemies. Players must unlock and use various tanks, mechs, and robots to their advantage, while utilizing powerful Boosters like mines, force shields, and rocket strikes. The goal is to build the ultimate tank and conquer Hills of Steel. To play Hills of Steel, players can move their tank using the A and D keys or arrow keys, shoot with the spacebar, and repair with the B button. This exciting game is also developed by Superplus Games and can be played for free on Poki, compatible with mobile devices and desktop computers. Lastly, Monkey Mart is an idle/management game where players control a cute monkey character in charge of a supermarket. The objective is to plant fruits, harvest produce, and sell various food items to customers while managing the market and hiring staff. Players can unlock new aisles, products, and appliances to upgrade their business and make it the best in town. To play Monkey Mart, players simply need to run around the market, grab fresh crops, and stack them up for customers to pick up. This fun game offers a unique blend of farming, management, and style, developed by Fancade and available on Poki for free, compatible with mobile devices and desktop computers. Given article text here Looking forward to seeing everyone at the meeting tomorrow to discuss our strategy regarding the new mart in Monkey Mart. The game has been updated with a new mart, and players can now produce and sell various goods like chocolate muffins, cookies, and ice cream. To unlock a new mart, pay attention to where the camera focuses on during gameplay, as building an aisle in that spot will require saving enough money. Ensure you've unlocked all mandatory stalls first to be eligible for opening your next branch. Switching between marts can be done by tapping the truck icon at the top of your screen or walking outside and standing next to it. To customize your character, browse through the hat shop at the top of your screen. Earning more money in Monkey Mart is made possible by upgrading your mart, which can be accessed by tapping the arrow icon at the top of your screen. Upgrades include various options like Player, Assistants, Farmers, Animals, and Chef to improve productivity, and Appliances to increase machine efficiency. Collecting money from customers can be done simply by standing next to the cash register where it will accumulate. The Chef is responsible for processing harvests and making snacks, while exhausted monkey assistants need increased motivation through upgrades in the Upgrades menu. Appliances include machines like Microwave, Yoghurt Maker, Grinder, and others to add variety to products sold. Yes, there is a new mart available now, and it can be played immediately! Monkey Mart was created by TinyDobbins, and you can also play other games on Poki such as Stick Defenders and Merge Round Racers. The collecting aspect remains strong, but an added layer of immersion comes from physically searching for and capturing Pokémon in real-life locations using your phone's GPS. This has contributed significantly to its massive popularity, especially back in 2016 when it was first released. With over six generations of Pokémon at its disposal, the game allows players to catch 'em all almost anywhere they go, as long as they have a stable internet connection and their trusty smartphone. Image via Tencent Games Currently leading the pack is PUBG Mobile, thanks in part to its port from PC and console versions. As one of the pioneering forces behind battle royale games, it puts players against each other, either solo or in teams, on an unknown island with only one goal: survival. The mobile version adds several exciting features such as extra login rewards, additional missions, and even an auto-loot system without altering the core gameplay experience. With over 1.3 billion downloads under its belt, PUBG Mobile solidifies PlayerUnknown's Battlegrounds' reign as the most successful franchise on handheld platforms. Image via Roblox Corporation Roblox stands out from the rest of the list by being more than just a game itself - it's a platform where users can create their own worlds and games, offering endless possibilities and creativity to all its players. The user-friendly creation tools make it highly accessible, but what truly sets it apart is its dedicated community that not only creates but also supports and nurtures each other in their creative endeavors. With such a wide range of options at their fingertips, Roblox provides an experience like no other - the ultimate sandbox where worlds and creativity know no bounds. Subway Surfers is an endless runner game where players control Jake as he surfs through subways, avoiding trains and obstacles while collecting coins to unlock power-ups and special gear. The game also features daily Word Hunts and missions in the "MyTour" section, where players can collect rewards and keys to customize characters and upgrade hoverboards. The game was created by Sybo in 2012 and has become one of the most popular games online, available on mobile devices and PC. It can be played for free without downloading it, and its HTML5 format allows for seamless online play. The game features a variety of characters, including Jake, Tricky, Yutani, Lucy, Tagbot, Ninja, Tasha, King, and Brody. Subway Surfers was inspired by skateboarding, graffiti, hip-hop culture, and music, and has reached over 1.8 billion downloads according to Sybo Games. Players can control the game using a keyboard on Poki's website, with options for full-screen mode and mouse support. The streets are a microcosm of inspiration, with elements from various genres and eras merged seamlessly into the game. Each new realm showcases this eclectic mix, reflecting the diverse musical influences that have shaped its sound. (Rewritten using the "INCREASE BURSTINESS" method)
